February 2019

President's Message

I'd like to say a Big Welcome to all our new members!

We had a great turn out for our January meeting! Thank you to Mike for the Cold Hardy program. It would be great if we all could put together a list of cactus and succulent that we have all grown outdoors here that has survived and grown well.

Robert had a nice list when he gave his program last year. Maybe that list could be combined and used for a handout at our next show and sale? Someone want to work on that?

We had our COCSS Board meeting on Saturday, February 9, 2019 at the Will Rogers Exhibition Center in the small meeting room from 2:00 pm to 5:00 pm. Things we covered were programs, fieldtrips and started working on some changes for our Annual Show and Sale. All members are Welcome to come and participate!!! We really need your HELP to make this a Great Year for our club!!!!

If any of you need help with your plants or question about the club please contact me at Cactibud@cox.net or call 405-737-1831.

Let's make this a Great Year!

February Meeting... "I Love my..."

In honor of Valentine's day we're doing something special for the meeting this month. It is brought to you by YOU, the club members.

You are encouraged to bring something that you can show the club and tell them about. Do you have a favorite tool you use? Maybe there's some sort of hack that you've figured out that you want to share with others.

I remember the first time I saw a friend of mine repotting some large root bound plants. She took a long old knife, stuck it in the pot around the edges and sawed around the outside. The plant popped out with ease, I was astounded.

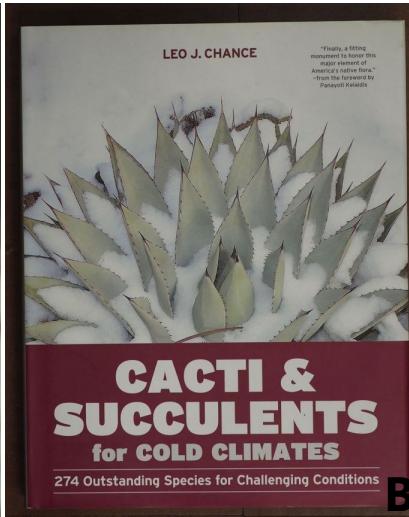

Many of us have been doing this for years and little things that we do all the time could be great information for new members and old members alike!

It doesn't HAVE to be a tool either. Maybe you have a plant in your collection that everytime you enter your greenhouse or that room of all your plants it's the first one you look at. WE'D LOVE TO SEE IT.

If you love it... we want to know why.
